Research papers

Anatomy of a submarine channel system and related fan in a foramol/rhodalgal carbonate sedimentary se : a case history from the Miocene syn-rift Sardinia Basin, Italy
M. Vigorito, M. Murru and L. Simone 1

Miocene sedimentary evolution of the NE–SW-trending Selendi and Gördes Basins, W Turkey: implications for extensional processes
M. Purvis and A. Robertson..... 31

Sedimentary facies, mineralogy, and geochemistry of the sulphate-bearing Miocene Dam Formation in Qatar
H.G. Dill, R. Botz, Z. Berner, D. Stüben, S. Nasir and H. Al-Saad 63

Silica-carbonate stromatolites related to coastal hydrothermal venting in Bahía Concepción, Baja California Sur, Mexico
C. Canet, R.M. Prol-Ledesma, I. Torres-Alvarado, H.A. Gilg, R.E. Villanueva and R.L.-S. Cruz..... 97

Geochemical model of $\delta^{18}O$ of pedogenic calcite versus latitude and its application to Cretaceous palaeoclimate
G.H. Mack and D.R. Cole 115

Cryptic indicators of provenance from the geochemistry of the Okavango Delta sediments, Botswana
P. Huntsman-Mapila, A.B. Kampunzu, B. Vink and S. Ringrose..... 123

Coarse aeolianites: sand sheets and zibar–interzibar facies from the Mesoproterozoic Cuddapah Basin, India
A. Biswas 149

Epiphytic calcium carbonate production and facies development within sub-tropical seagrass beds, Inhaca Island, Mozambique
C.T. Perry and S.J. Beavington-Penney..... 161

Sedimentology of the Bondi Main heavy mineral beach placer deposit, Murray Basin, southeastern Australia
M. Paine 177

Sedimentary environments of the Middle Permian phosphorite–chert complex from the northeastern Yangtze platform, China; the Gufeng Formation: a continental shelf radiolarian chert
M. Kametaka, M. Takebe, H. Nagai, S. Zhu and Y. Takayanagi 197

Surface textures of heavy-mineral grains: a new contribution to provenance studies
J.P. Moral Cardona, J.M. Gutiérrez Mas, A. Sánchez Bellón, S. Domínguez-Bella and J. Martínez López 223

Clay minerals as alteration products in basaltic volcaniclastic deposits of La Palma (Canary Islands, Spain)
E. García-Romero, J. Vegas, J.L. Baldonedo and R. Marfil..... 237
